

Classdojo

By now you should all have received an email enabling you to login to Classdojo. This is an information platform that we started using last year during lockdown. We will use it to share with you some of the classroom activities which your child is involved in. These may be stored on your child's individual profile (visible to only yourself and the teaching staff) or on the class story which is visible to all the parents of children in Oak class. If your child completes an activity at home which they are proud of e.g. ride their bike without stabilisers, then you can post it to their profile to share with us at school. If we are required to teach remotely during the year, daily activities will be loaded onto class story.

Homework

Each half term homework will be set linked to our topic. We send home a sheet with lots of ideas and suggestions on and ask you to choose at least 2 items. The homework is returned to school on a given date on the sheet and this is then shared with the class. For the first half term only year 1 children will be given topic related homework.

Items from home

We do not encourage the children to bring in toys from home in case they get broken or lost. However, if they have items relating to our topic or to a place they have visited, they are welcome to bring them in to show to the class.

Oak Class Newsletter Autumn 1

This term our topic focus will be
superheroes
